Enclosed is the revised Transportation and Disposal Plan for the Silo 3 Project. A previous plan was submitted for review by the USEPA and OEPA (Reference 1) in accordance with the Silo 3 Remedial Design/Remedial Action (RD/RA) Package, and was approved by the USEPA and the OEPA in References 2 and 3, respectively.

The original plan, submitted to USEPA and OEPA in Reference 1, documented the procedures and methods for truck transportation of conditioned Silo 3 material to the Department of Energy (DOE) Nevada Test Site (NTS) for disposal. The enclosed plan has been revised to reflect disposal at Envirocare of Utah. Comments from informal review of the draft revised plan by the USEPA and the OEPA are addressed in the enclosed document.
